Authorize

default

GET /api/flights/search Search flights

GET /api/accommodations/search Search accommodations

GET /api/activities/search Search activities

GET /api/tenants/{domain}/branding Get tenant branding

GET /api/trips/recommendations Get budget-based trip recommendations

POST /api/auth/signup Register a new user under a tenant

POST /api/auth/login Log in and receive a JWT

POST /api/bookings Create a booking

Creates a booking under the caller's tenant (tenantId is sourced from the JWT, never from the request body). Server computes totalAmount from cached flight.price + accommodation.pricePerNight × nights.

Parameters Cancel

No parameters

Request body required — application/json

Edit Value | Schema

```
{
  "flightId": "FL001",
  "accommodationId": "AC001",
  "startDate": "2026-06-10",
  "endDate": "2026-06-17"
}
```
